

# Amherst Central School District

---

Anthony J. Panella  
Superintendent

Mark Rampado  
Director of Facilities

March 1, 2018

Dear Neighbor,

The Amherst Central School District would like to provide you with an update on our Capital Construction Project - Phase I. As we discussed at the meeting back in July (when we updated everyone regarding the tennis court reconstruction plan) we agreed that we would periodically provide updates as we approached construction.

We would like to advise you that Phase I construction work is slated to begin the week of March 5, 2018. This will start specifically in the Tennis Court Area as denoted on the enclosed Logistics Plan. We do not start construction on the balance of the Track and Field area until approximately May 25, 2018.

We have already advised the contractors of the need to be very careful with excavations along the property line and the existing fence to remain. Please note that additionally there will be an erosion control fabric placed along the property line.

Contractors have additionally been advised they cannot start construction any sooner than 7:00 AM each morning. In general, construction will be Monday – Friday but weekend and evening construction is possible depending on the schedule and weather.

If you have questions, please contact me at either [mrampado @amherstschoools.org](mailto:mrampado@amherstschoools.org) or phone 362-3000.

Sincerely,

Mark G. Rampado, AIA  
Director of Facilities III
