In the spring of 2016, the Amherst Central School District (ACSD) launched a partnership with the Warner School of Education at the University of Rochester to begin a process to create a district strategic plan. A multi-year plan was approved and will provide a comprehensive road map to all that occurs within the ACSD, as well as the partnerships we form within the Amherst.

OUR MISSION: To prepare all students to excel in a world through the development of their abilities to reason, solve problems, apply knowledge, communicate and collaborate effectively.

Priority 1: Learning and Achievement

All learners will have access to appropriate and robust learning opportunities and achieve at a high level of growth and achievement.

Clearly, learning and academic achievement drives our mission as a school district. Within this priority, the focus is on asking ourselves how we best meet the learning needs of our students and staff. From an in-depth look at how we provide for our at-risk students to identifying specific college and career readiness skills our students need, these priorities cover a broad scope that will include implementing plans for instructional technology, curriculum and professional development.

Priority 2: Student Life

To foster a love of learning through the development of the whole child.

We recognize that involvement in activities outside the classroom and interactions in class with faculty and peers allows our students to continually grow and develop. The priorities identified within this area focus on how the district can support the development of the social and emotional needs of students. Part of this work will be to create a district-wide committee and building level groups to implement, a PreK-12 character education curriculum.

We will analyze our extra-curricular options, identify areas of expansion and study how we can increase student participation in these activities. By implementing internships as work-based learning opportunities, we will help students develop their natural interests and possible college or career focus.

Aligning classroom management techniques to the Thoughtful Classroom Teacher Effectiveness Framework (Silver & Strong) and developing building based behavioral support teams will ensure a safe and supportive learning environment for all students.

Priority 3: Amherst Pride

To enhance Amherst Pride by fostering relationships between internal and external stakeholders within Amherst and the greater Western NY community.

Developing a sense of civic pride and responsibility among the school district and its community drives many of the initiatives with this priority area.

Already strong, we will continue to evaluate, identify, and implement community service opportunities. Enhancing and expanding the district's internal and external partnerships will benefit existing programs and link to other initiatives within the Student Life and Learning and Achievement priority areas. An employee wellness component will include ways to support the physical, mental, and emotional well-being of students, faculty, staff, and community members. Developing a communication plan will allow us to define how we will share ACSD news and strategic plan updates.

Finally, we believe the school district is truly the hub of the community and we will identify, implement and evaluate programs to encourage participation in activities among all stakeholders within the ACSD.

Introduction

Counseling is a process of helping people by assisting them in making decisions and changing behaviors. School counselors work with all students, school staff, families and members of the community as an integral part of the education program. School counseling programs promote school success through a focus on academic achievement, prevention and intervention activities, advocacy and social/emotional and career development.

(American School Counselor Association as found in The New York State Comprehensive School Counseling Program, 2012).

As New York State continues to work on school improvement, school counselors across the state continue to adjust to the impact on student need. Every Student Succeeds Act (ESSA) passed in 2015, replaces the No Child Left Behind of 2001. ESSA provides plans for comprehensive school counseling services including professional development and career counseling services. Many provisions of ESSA will unfold and integrate in 2017-18 (ASCA, Legislative Affairs, 2016). School Counselors work in collaboration with educational teams to examine changes in policies and regulations and will work to promote the academic missions of their schools as well as goals of the NYS Education Department and Every Student Succeeds Act.

The New York State Model For Comprehensive K-12 School Counseling Programs

Appendix B: Part 100 and School Counseling Programs

As per the New York State Education Department, listed in Part 100 of the Commissioner's Regulations, school counseling/guidance programs are defined as follows:

1) Public Schools: Each school district shall have a guidance program for all students

(i) In grades K-6, the program shall be designed in coordination with the teaching staff to prepare students to participate effectively in their current and future educational programs, to help students who exhibit any attendance, academic, behavioral or adjustment problems, to educate students concerning avoidance of child sexual abuse and to encourage parental involvement.

(ii) In grades 7-12, the guidance program shall include the following activities and services:

- a. An annual review of each student's educational progress and career plans, with such reviews to be conducted with each student individually or with small groups by personnel certified or licensed as school counselors;
- b. Instruction at each grade level to help students learn about various careers and about career planning skills conducted by personnel certified or licensed as school counselors, or by classroom teachers in cooperation with school counselors;
- c. Other advisory and individual or group counseling assistance to enable students to benefit from the curriculum, to help students develop and implement postsecondary educational and career plans, to help students who exhibit any attendance, academic, behavioral or adjustment problems and to encourage parental involvement, provided that advisory assistance shall be provided by teachers or counselors or by certified teaching assistants under the supervision of counselors or teachers, and that such individual or group counseling shall be provided by certified or licensed school psychologists or certified or licensed school social workers in cooperation with school counselors; and
- d. The services of personnel certified or licensed as school counselors.

(iii) Each school district shall develop a district plan which sets forth the manner in which the district shall comply with the requirements of this subdivision. The City School District of the City of New York shall submit a separate plan for each community school district, for the High School Division and for the Special Education Division. Such plan shall be filed in the district offices and shall be available for review by any individual. The plan shall present program objectives, which describe expectations of what students will learn from the program; activities to accomplish the objectives; specifications of staff members and other resources assigned to accomplish the objectives; provisions for the annual assessment of program results. The plan shall be reviewed annually by the school districts, and revisions shall be made as necessary.

The Role of the School Counselor

Comprehensive School Counseling Program

The School Counselor is a certified professional educator who is qualified to address students' academic, career and social/emotional needs. Through leadership, advocacy, and collaboration, counselors promote positive educational experiences for all students in a safe learning environment. Prevention and intervention programs are part of a comprehensive school counseling program (Lee, 2001). School Counselors serve a critical role in student success (Lapan, Gysbers, and Kayson, 2007). It is recommended by the American School Counseling Association that a school counselor-to student ratio of 1:250 is optimal for meeting students' needs (ASCA Mindsets and Behaviors for Student Success, 2014).

Amherst Central Schools endorse a comprehensive school counseling program that promotes and enhances student learning and academic achievement. It is a framework for the systematic development, implementation, and evaluation of school counseling programs. The process for delivery of the National Standards is accomplished by utilizing each of the four components of the comprehensive model: school counseling curriculum, individual student planning, responsive services, and system support. The comprehensive model identifies the skills for students and outlines various strategies, activities, and resources to deliver the content to students. The comprehensive counseling program is part of a student's total educational process and the mission of the school.

The School Counseling Program is integral to the educational process through academic, career and personal/social development. The program is proactive and preventive in its focus. It assists students in acquiring and using life-long learning skills. More specifically, school counseling programs employ strategies to enhance academics, provide career awareness, develop employment readiness, encourage self-awareness, foster interpersonal communication skills and impart life success skills for all students.

The school counseling program has characteristics similar to other educational programs, including a scope and sequence; student outcomes or competencies; activities and processes to assist students in achieving these outcomes; professionally credentialed personnel; materials and resources; and accountability methods.

School counseling programs are developed by design, focusing on needs, interests and issues related to the various stages of student growth. There are objectives, activities, special services and expected outcomes with an emphasis on helping students to learn more effectively and efficiently. There is a commitment to individual uniqueness and the maximum development in three major areas: academic, career and personal/social (ASCA, 2012).

Most school counselors agree that their skills, time and energy should be focused on direct services to students. The American School Counseling Association recommends that counselors spend 80% of their time on direct and indirect service to students (ASCA, 2012). School counseling programs and the role of the school counselor should be determined by the educational, career and personal development needs of students. The comprehensive school counseling program places the counselor in a key position to identify the issues that impact student learning and achievement. The school counselor is at the core of school planning, school programs and school environment.

The school counselor is not the counseling program. The school counselor and school counseling program use a collaborative model as their foundation. Counselors do not work alone; all educators play a role in creating an environment which promotes the achievement of identified student goals and outcomes. The counselor facilitates communication and establishes linkages for the benefit of students, with teaching staff, administration, families, student service personnel, agencies, business and other members of the community. School success depends upon the cooperation and support of the entire faculty, staff and student services personnel.

As student advocates, school counselors are committed to participate as members of the educational team. They consult and collaborate with teachers, administrators and parents/guardians to assist students to be successful academically, vocationally and personally. School counselors are recognized as indispensable partners of the instructional staff in the development of good citizens and leaders. As schools and communities initiate and establish partnerships to address common concerns, it is important that these efforts are implemented in a manner which facilitates the educational process and the full use of school and other community resources on behalf of students and their families.

Our educational system is being challenged by the growing needs of today's students and the rising expectations of society. Some of our children attend school with emotional, physical and interpersonal barriers to learning as a result of societal and other factors. However, all students require systematic support for their development. Therefore, in a comprehensive school counseling program, less emphasis is placed on crisis-oriented services. The emphasis is on development for all students. An effective school counseling program begins when students enter the school system and continues as they progress through the educational process. School counseling is an integral part of the total educational enterprise.

Our nation is rich in multicultural diversity. Effective school counseling programs and trained staff reflect and are responsive to the diversity in our schools and communities. Effective school counseling programs serve all students and acknowledge that diversity and individual differences are valuable to all. The programs and staff ensure that communication is open and that the community is represented and involved as counseling programs are developed and implemented. Counseling programs help ensure equal opportunity for all students to participate fully in the educational process.

Result-based counseling is also crucial to a comprehensive counseling program. School counseling programs are data-driven and provide an accountable way to align the school counseling program with the school's mission. Results data show that a student competency has affected course selection, graduation rates, attendance and academic achievement.

(ASCA National Model, 2012).

Benefits of Comprehensive School Counseling Program

Comprehensive developmental school counseling programs positively impact students, parents/guardians, teachers, administrators, boards of education, and other student services personnel, school counselors, business, and industry. The benefits to each of these groups include the following:

Benefits for Students

1. Prepares students for the challenges of the 21st century by acquiring knowledge and skills in academic, career, and personal/social development.
2. Connects the educational program to future success.
3. Facilitates career exploration and development.
4. Develops decision-making and problem-solving skills.
5. Assists in acquiring knowledge of self and others.
6. Enhances personal-social development.
7. Assists in developing effective interpersonal relationship skills.
8. Broadens knowledge of our changing world.
9. Guarantees school counseling services to every student.
10. Increases the opportunity for counselor-student interaction.
11. Encourages facilitative, cooperative peer interactions.
12. Fosters resiliency factors for students.

Benefits for Parents/Guardians

1. Prepares their children for the challenges of the 21st century through academic, career and personal/social development.
2. Provides support for parents/guardians in advocating for their child's academic, career, and personal/social development.
3. Develops a systematic approach for their child's long-range planning and learning.
4. Increases opportunities for parent/guardian/school interaction.
5. Enables parents/guardians to access school and community resources.

Benefits for Teachers

1. Provides an interdisciplinary team effort to address student needs and educational goals.
2. Provides skill development for teachers in classroom management, teaching effectiveness, and affective education.
3. Provides consultation to assist teachers in their guidance and advisement role.
4. Positively impacts school climate and the learning community.
5. Supports classroom instruction.
6. Encourages positive, calendared activities and supportive working relationships.
7. Promotes a team effort to address developmental skills and core competencies.
8. Increases teacher accessibility to the counselor as a classroom presenter and resource person.

Benefits for Administrators

1. Integrates school counseling with the academic mission of the school.
2. Provides a program structure with specific content.
3. Assists administration to use school counselors effectively to enhance learning and development for all students.
4. Provides a means of evaluating the effectiveness of the school counseling program.
5. Demonstrates school counseling accountability.
6. Enhances community image of the school counseling program.

Benefits for Local Boards of Education

1. Provides rationale for implementing a comprehensive developmental counseling program in the school system.
2. Provides assurance that a quality school counseling program is available to every student.
3. Demonstrates the necessity of appropriate levels of funding for implementation.
4. Supports appropriate credentialing and staffing.
5. Provides a basis for determining funding allocations for school counseling programs.
6. Furnishes program information to the community.
7. Gives ongoing information about student acquisition of competencies and standards through school counseling program efforts.

Benefits for School Counselors

1. Provides a clearly defined role and function in the educational system.
2. Eliminates non-counseling functions.
3. Provides a direct service to every student.
4. Provides a tool for program management and accountability.
5. Enhances the role of the school counselor as a student advocate.
6. Ensures involvement in the academic mission of the school.
7. Places school counselors in a leadership role to close the gap!

Benefits for Student Services Personnel

1. Provides school psychologists, social workers, and other professional student services personnel with a clearly defined role of the school counselor.
2. Clarifies areas of overlapping responsibilities.
3. Fosters a positive team approach, which enhances cooperative working relationships.

Benefits for Business and Industry

1. Increases opportunities for business and industry to participate actively in the total school program.
2. Provides increased opportunity for collaboration among counselors, business, industry, and communities.
3. Provides a potential workforce with decision-making skills, pre-employment skills, and increased worker maturity.

Benefits for the Community

1. Provides an increased opportunity for collaboration and participation of community members with the school program.
2. Creates community awareness and visibility of the school counseling program.
3. Connects the community to the needs of the school and the school to the needs of the community.
4. Enhances economic development through quality preparation of students for the world of work.

The National School Counseling Model incorporates national standards, the comprehensive process and results-based accountability, while considering the developmental needs of every student. The four main components of the model are:

1. The **foundation** of the program which addresses the belief and mission that every student will benefit from the school counseling program in the areas of academic, career, and personal/social domains.
2. The **delivery system** which defines the implementation process and the components of the comprehensive model (guidance curriculum, individual student planning with students, responsive services and system support).
3. The **management system** that presents the organizational process and tools needed to deliver a comprehensive school counseling program. These processes and tools include: agreements or responsibility, use of data, action plans, and time and task analysis; monthly calendars.
4. The **accountability system** which helps school counselors demonstrate the effectiveness of their work in measurable terms such as impacts over time, performance evaluation, and a program audit.

Foundation of the Comprehensive Counseling Program

The mission of the Amherst School Counseling Department is to prepare all students academically and socially to become productive members of society through a partnership of students, educators, parents and the community.

Amherst Counselors believe:

- All students have dignity and worth.
- A school counseling program should be available for all students.
- All students ethnic, cultural, racial, and sexual differences and special needs are considered.

The Amherst Counseling Program should:

- be based on specific goals and student competencies grades K-12.
- be planned in coordination with school personnel, parent, and student.
- use data to drive the program.

Amherst Counselors will:

- abide by professional school counseling ethics outlined by the ASCA.
- participate in professional development to maintain a quality school counseling program.

School Counseling National Domains and Standards

The National Standards for School Counseling programs facilitate student development in three broad areas: academic development, career development, and personal/social development. Here are the nine national standards adopted by New York State.

Academic Development

Standard A

Students will acquire the attitudes, knowledge and skills contributing to effective learning in school and across the lifespan.

Standard B

Students will complete school with the academic preparation essential to choose from a wide range of substantial post-secondary options, including college.

Standard C

Students will understand the relationship of academics to the world of work and to life at home and in the community.

Career Development

Standard A

Students will acquire the skills and to investigate the world of work in relation to knowledge of self and to make informed career decisions.

Standard B

Students will employ strategies to achieve future career and success and satisfaction.

Standard C

Students will understand the relationship between personal qualities, education and training and the world of work.

Personal/Social Development

Standard A

Students will acquire the attitudes, knowledge and interpersonal skills to help them understand and respect self and others.

Standard B

Students will make decisions, set goals, and take necessary action to achieve goals.

Standard C

Students will understand safety and survival skills.

Delivery System of the Comprehensive Counseling Program

Once the Counseling Program has established a mission and philosophy, a delivery system of activities and interactions describe how the counseling program will be implemented. The components of the comprehensive counseling program include school counseling curriculum, individual student planning, responsive services, and system support.

School Counseling Curriculum:

The counseling curriculum is planned, on-going, and systematic. It includes a clear explanation of the scope and sequence. The desired competencies provide students with the skill appropriate for their developmental level. It consists of classroom activities, group activities, interdisciplinary curriculum development, and parent workshops.

Individual Student Planning:

School Counselors coordinate ongoing activities designed to help individual students establish personal goals and develop future plans. It includes individual or small group appraisal, case management, and student advisement.

Responsive Services:

Responsive services consist of activities and counseling to meet students' immediate needs and concerns. This includes personal counseling, crisis counseling, consultation with school staff, parents and community agencies, and referrals.

System Support:

This consists of management activities that maintain the total school counseling program. It includes professional development, program management and promotion, data analysis of the counseling program, and parent and community outreach.

Distribution of Total School Counselor Time

Delivery System Component	Elementary School % of Time	Middle School % of Time	High School % of Time
Guidance Curriculum	35%-45%	25%-35%	15%-25%
Individual Student Planning	5%-10%	15%-25%	25%-35%
Responsive Services	30%-40%	30%-40%	25%-35%
System Support	10%-15%	10%-15%	15%-20%

GOAL V: Help students who exhibit attendance problems.

Although there is a direct correlation between attendance and student performance, attendance can be affected by many factors: academic, social, emotional, medical and family concerns. Because Amherst Central School District is committed to furthering the academic, social/emotional and physical growth of all students, attendance is monitored very closely as early as kindergarten. It is recognized that the Home-School connection is an essential and powerful force in improving attendance.

Specific procedures to improve student attendance which are implemented by the school include, but are not limited to, the following:

1. **Parent Letter from the Principal (Home-School Connection):**
 - a. First letter offers the help of the nurse or principal in helping the child come to school.
 - b. Second letter underscores the urgency and serious nature of the continued absenteeism/tardiness with a follow-up parent contact by phone or email to offer help of the social worker.
 - c. Third letter requests a face-to-face meeting with the principal and states by law Child Protective Services requires the reporting of high absenteeism.
2. **Mentoring Program (School- Student Connection):**
 - a. Positive School relationships with children have been shown to decrease absenteeism and increase a child's confidence and feelings of connection to the school. An initiative called "*Success Mentors*" pairs a "Special Area" teacher or social worker with a student who has been identified with a poor attendance record. By being a source of encouragement, a friend and a role model, the Success Mentor helps build the School-Student bond, another important factor of school attendance.
3. **Classroom Connections:**
 - a. Classroom teachers and assistants as well as related services faculty and "Specials" teachers work diligently to encourage students to attend school functions and activities in order to strengthen the School-Student connection.

GOAL V: Help students who exhibit attendance problems.

- A. Target Population – PreK through 5 Students/Families

- B. Expected Outcomes –
 - 1. Students and parents/guardians will acknowledge that educational success depends on regular attendance.
 - 2. Students will develop a more positive self-image and feel more comfortable within their school setting.
 - 3. Students and parents/guardians will understand the benefits of active involvement in school.
 - 4. Improved student attendance rates.
 - 5. Students/Parents/Guardians will display an enhanced ability to recognize, meet and solve his/her problems.

- C. Annual Assessment –
 - 1. Student attendance records.
 - 2. Student academic records.
 - 3. Students will exhibit an improved self-image as observed by teachers, parents/guardians and administrators.
 - 4. Social workers, teachers, administrators, nurse and “specials” area teachers, other observations of improved communication with parents/guardians.
 - 5. Increased student participation in school activities.

GOAL V. Help students who exhibit attendance problems.

MIDDLE SCHOOL COUNSELING PLAN: GRADES 6-8

AMHERST
MIDDLE SCHOOL

Revised August 2017

The American School Counselors National Standards and Amherst School Curriculum

The American School Counselor Association's (ASCA) National Standards align with Amherst School Counseling curriculum. This ensures that students are acquiring competencies that are integrated into the student's school experience. So, the domains are broad developmental areas including academic, career, and personal development. These domains include standards which provide a description of what students should know and perform. Competencies are specific expectations that students achieve in the content standard within the domains. Indicators describe the specific skills that the student should demonstrate.

The Amherst Counseling Department Delivery System

The Amherst Central School District's Comprehensive Counseling Program is based on the core beliefs, philosophies and missions identified in the foundation. The delivery system describes the activities, interactions, and methods necessary to deliver the programs to the school community. Amherst's Counseling Program integrates academic, career and personal/social development. The components of the school counseling program include the school counseling curriculum, individual student planning, responsive services, and system support.

School Counseling Curriculum:

The Counseling curriculum consists of structured developmental lessons to assist students in achieving the desired competencies and to provide all students with the knowledge and skills appropriate for their developmental level. The counseling curriculum is infused throughout the school's overall curriculum and is presented systematically through K-12 classroom instruction and group activities.

Classroom activities:

- School Counselors present lessons in the classroom setting.

Group activities:

- School Counselors may also conduct large group activities to address students' particular needs.

Interdisciplinary activities:

- School Counselors participate in teams to develop curriculum across content areas.

The School Counselor will teach

- Bully Prevention lessons in grade 6, 7, and 8. (e.g. Bystander Bullying, Internet Safety, and Digital Citizenship).
- Counselors present an "Introduction to the Counselor" in small groups.
- Middle School Counselors provide transition services for students throughout middle school. (Orientations for new students)
- A 6th grade Orientation is coordinated by the 6th grade School Counselor.
- A vocational school tour/visit is facilitated by the 7th and 8th grade school counselors.
- Counselors talk to classes on personal hygiene.
- Counselors speak in classroom settings regarding study strategies.
- Middle School Counselors speak to classes regarding high school planning.

Individual informational classroom sessions/small group sessions-topics include:

- Sisterhood
- Stress Busters
- Understanding Myself
- Grief
- Friendship
- Social Skills
- Organizational (Get organized or G.O)
- Study Skills
- Family Change
- Body Image
- Coping Skills
- Anger Management
- Seven Habits
- Lunch Bunches
- Home Instruction Liaison

Individual Student Planning:

- School Counselors coordinate ongoing systematic activities designed to assist students individually in establishing personal goals and developing future plans.

Case Management:

- School Counselors monitor individual student progress.

Individual Appraisal:

- School Counselors use test information and other data to assist students in analyzing and evaluating their interests, skills, and abilities.

Individual Advisement:

- School Counselors work directly with students on developing an appropriate educational plan.

Placement:

- School Counselors assist students in determining the proper educational setting as they meet academic and career goals.
- The School Counselor will hold individual meetings with students in danger of failing core academic subjects.
- The School Counselor assists in scheduling and facilitating parent/teacher conferences.
- The School Counselor will be available and provide assistance in transition of students described as "new entrants."
- The School Counselor will collaborate and consult with building administration to provide academic, social, and emotional interventions as needed.
- The School Counselor is responsible for each student's individual course selection process and schedule development. (e.g. evaluation for accelerated coursework, UB gifted Math, and private school applications etc.)
- The School Counselor participates in CSE meetings and 504 Plan meetings for their individual students.

- The School Counselor develops and implements “Success Plans” for students who are at risk for failing academic subjects.
- The School Counselor is involved in the scheduling and implementing of transition programs from 5th grade to 6th grade and from 8th grade to 9th grade. This includes communicating and collaborating with 5th grade teachers, social workers, and administrators, and 9th grade teachers, social workers, high school counselors and administrators.
- The School Counselor coordinates summer skills programming for students and families in need.
- The School Counselor identifies, places, and monitors students in the after-school Academic Monitoring Program. (AMP).
- The School Counselor develops individualized behavioral improvement plans for students in need. (e.g. Daily Report Cards, Check-in, and Check-out etc.).
- The School Counselor participates in quarterly High Honor Roll and attendance recognition programs.
- The School Counselor assists in the coordination of year-end student award selection and ceremony.
- The School Counselor assists in the recommendation of after school programs that support student achievement and socialization e.g. "Eye to Eye", Social Club, and Mentoring).
- The Middle School Counselor monitors and assesses student readiness for participation in sport programs.

Responsive Services:

- Responsive services consist of activities meeting individual student’s immediate needs, usually necessitated by life events, situations, and/or conditions in the student’s life. These needs require counseling, consultation, referral, peer mediation, and information.

Consultation:

- School Counselors work with parents, teachers, students, and other involved parties to develop strategies to assist students.

Personal Counseling:

- School Counselors provide a student maximum privacy in which to freely explore ideas, feelings, and behaviors.

Crisis Counseling:

- School Counselors provide prevention and interventions. This counseling is short term in nature addressing a particular student concern.

Referral

- School Counselors refer students and their families to appropriate community agencies when needed.
- The School Counselor is available to meet the needs of students during a time of crisis.
- School Counselors provide prevention and intervention addressing individual student concerns.
- The School Counselor meets once weekly with each assigned grade level team to discuss student need and strategies to assist them.
- The School Counselor provides the student privacy in which to freely explore ideas, feelings, behaviors that may interfere with their academic success.
- The School Counselor works with teachers, parents, and administrators to develop a comprehensive intervention plan to assist students at risk in areas of academics, attendance, and social/ emotional concerns.
- The School Counselor refers students and their families to appropriate community agencies when needed.
- The School counselor assists families in need of basic necessities such as food, health insurance information, eye-glasses, clothing etc.
- The School Counselor, in consultation with the team of teachers, identifies and refers students to the building level instructional support team for academic, personal, or social issues.
- The Counselor will be available to students requesting individual support and/or mediating situations among a group of students.

System Support:

- A School Counseling Program requires administration and management to establish, maintain, and enhance the total counseling program.
- Professional development: School Counselors must update their knowledge and skills by participating in training, professional meetings, conferences, and relevant course work.
- Program Promotion: School Counselors provide orientation and information regarding the programs to the greater community via websites, counseling newsletters, and community presentations.
- School Counselors are responsible for implementing the Attendance Promotion Program.
- The School Counselor communicates with parents, teachers, and administrators in regards to their caseload.
- The School Counselor utilizes newsletters and electronic communication to inform the whole school community of the school counseling program.
- The School Counselor should utilize the school counseling website to promote their programs.
- The School Counselor will update knowledge and skills by participating in training, professional meetings, conferences and relevant course work.
- The School Counselor participates in ongoing evaluative measures to assess the efficacy of the counseling program.

Professional Responsibilities and Indirect Services Being Performed by the School Counselors:

- Home base assignment
- Building and district committees
- Assist with Scheduling
- Proctoring exams and New York State Assessments
- Intervention History documents: initiating and updating
- Academic Intervention Services-Notification to parent,

The Amherst Counseling Department Delivery System

The Amherst Central School District's Comprehensive Counseling Program is based on the core beliefs, philosophies and missions identified in the foundation. The delivery system describes the activities, interactions, and methods necessary to deliver the programs to the school community. The Amherst Counseling Program integrates academic, career, and personal/social development. The components of the school counseling program include the school counseling curriculum, individual student planning, responsive services, and system support.

School Counseling Curriculum:

The Counseling curriculum consists of structured developmental lessons to assist students in achieving the desired competencies and to provide all students with the knowledge and skills appropriate for their developmental level. The counseling curriculum is infused throughout the school's overall curriculum and is presented systematically through K-12 classroom instruction and group activities.

Classroom activities:

- School Counselors present lessons in the classroom setting

Group activities:

- School Counselors may also conduct large group activities to address student's' particular needs
- School Counselors coordinate ongoing systematic activities designed to assist students individually in establishing personal goals and developing future plans

Case Management:

- School Counselors monitor individual student progress

Individual Appraisal:

- School Counselors use test information and other data to assist students in analyzing and evaluating their interests, skills and abilities

Individual Advisement:

- School Counselors work directly with students on developing an appropriate educational plan

Placement:

- School Counselors assist students in determining the proper educational setting as they meet academic and career goals

Freshman

Incoming Freshman Transition Skills

Incoming freshman meet with high school counselors to develop an awareness of the high school curriculum. This involves many opportunities for students to tour the building, classroom guidance and individual meetings.

Freshman Review Meetings and Classroom Instruction

The school counselor will consult with each student individually and review course selections, grades, graduation requirements and school involvement outside of the classroom. Counselors will also provide classroom instruction on study skills and high school success.

Parent Night

Incoming freshman and their parents attend an evening event that is designed to help with the transition from middle to high school. During the orientation parents and students are given the opportunity to learn more about the scheduling process, meet faculty and staff and hear about the services provided by the school counselors.

Freshman Orientation – Adventure

Freshman spend an entire day at the high school participating in various activities including organization, time management, study skills and team building

Career Development

School counselors will lead classroom and group lessons focused on helping students develop cognitive, social and self-management skills which improves student performance. This will include career exploration and development utilizing electronic resources (Guidance Direct and/or Choices 360). Students will be developing a personal electronic portfolio where they can store career and college information of interest, personal reflections, plans and their education and work history.

College Information Night

Panel discussion with a minimum of four admission representatives reviewing college entrance requirements. An overview is given encompassing the entire college exploration and application process.

Student Progress and Career Review

School counselors will meet with each student to review their academic progress, career plans, credit review and future course selections.

Sophomores

PSAT

Preliminary SAT (PSAT) is offered to sophomore students. The PSAT is a standardized test that provides firsthand practice for the SAT Reasoning Test.

Vocational Tours/Planning

Sophomores attend presentations and tours at ERIE 1 BOCES sites exploring vocational programs that meet academic requirements and vocational training.

Career Development

Students will utilize Guidance Direct and/or Choices 360 to continue developing a personal electronic portfolio where they can store updated career and college information of interest, personal reflections, plans and their education and work history.

College Information Night

Panel discussion with a minimum of four admissions representatives reviewing college entrance requirements. An overview is given encompassing the entire college exploration and application process.

ASVAB

Armed Services Aptitude Battery (ASVAB) is made up of verbal, math and technical skills. A student's score is one of the main factors in determining jobs/careers that are the best fit. The ASVAB is administered for all of our students at the high school. Classroom lessons are utilized to interpret scores and assess career/college readiness.

Student Progress and Career Review

School counselors will meet with each student to review their academic progress, career plans, credit review and future course selections.

Juniors

PSAT/NMSQT

The Preliminary SAT/National Merit Scholarship Qualifying Test (NMSQT) is a co-sponsored program by the College Board and the National Merit Scholarship Corporation (NMSC). The PSAT/NMSQT provides firsthand practice for the SAT and also gives juniors a chance to enter NMSC scholarship programs. The test measures reading and writing skills in addition to math. The results are also utilized to assess college readiness. The PSAT/NMSQT is administered annually in the fall at the high school.

Western New York College Consortium

Juniors are offered the opportunity to interact with nineteen local colleges and speak with admission representatives. During the event the students will gain valuable information about course planning, admission requirements, college majors and career development.

College Visits

Throughout the first semester, college admission representatives are host by the Student Services Office. Students have the opportunity to gain information about the colleges/universities, ask questions and explore postsecondary options.

College Information Night

Panel discussion with a minimum of four admission representatives reviewing college entrance requirements. An overview is given encompassing the entire college exploration and application process.

Senior Year Planning

School counselors will meet with each junior individually to do a comprehensive review of their academic program and postsecondary preparation.

Post High School Planning Presentation

School counselors provide group lessons to junior students to help identify personal progress, realistic goals and an action plan. Group lessons are prepared to target all student's needs and abilities.

National College Fair

Students are offered the opportunity to attend the National College Fair to meet with representatives from approximately 250 colleges/universities. School counselors are also available to assist students with college and career planning onsite.

Financial Aid Night

Students and parents are invited to attend an open discussion with a financial aid expert. Following the presentation families are encouraged to ask questions. the financial aid night provides important financial information to assist parents and students in their decision-making process.

Career Development

Students will utilize Guidance Direct and/or Choices 360 to continue developing a personal electronic portfolio where they can store updated career and college information of interest, personal reflections, plans and their education and work history.

Seniors

Senior Review

School Counselors will meet with seniors individually to review student transcripts, college and/or career plan and graduation track. Counselors will review the college application process or the next steps in the student's future career planning.

Senior Seminar

Large group instruction outlining the senior year timeline. The information disseminated includes information about standardized testing and the application process.

Western New York College Consortium

Seniors are offered the opportunity to interact with nineteen local colleges and speak with admission representatives. During the event, the students will gain valuable information about course planning, admissions requirements, college majors and career development.

College Visits

Throughout the first semester, college admission representatives are hosted by the Student Services Office. Students have the opportunity to gain information about the colleges/universities, ask questions and explore postsecondary options.

At-Risk Communication

School Counselors keep in regular contact with senior students and parents via email, phone and/or individual meetings to discuss progress towards graduation.

College Application Process

School Counselors are responsible for helping students navigate the application process and timeline including letters of recommendations, standardized test scores, transcript requests and all other responsibilities related to the completion of each student's college application.

Scholarships

School Counselors, along with the College and Career Aide, are responsible for maintaining a current database of college scholarships that is effectively communicated to students and parents. This includes processing scholarship applications including calculating and identifying the numeric testing averages to qualify for the New York State Scholarship for Academic Excellence.

Responsive Services – High School

- Each School Counselor must be available to meet the needs of students and the school community during a time of crisis. School counselors must make themselves available to all students presenting with a crisis. This responsibility takes priority over any other school counseling responsibility (Responsive services include, but not limited to, death, divorce, violence, classroom disruption, homelessness, suicidal ideation and school anxiety.)
- Each School Counselor is responsible for addressing the needs of academically, emotionally and socially “at-risk” students through individual meetings and/or the IST Committee throughout the school year.
- School Counselors refer students and their families to appropriate community agencies when needed.
- Each School Counselor is available at the beginning of the school year to re-evaluate student schedules on an as needed basis.
- Each School Counselor is available to students requesting individual support and/or mediating situations among a group of students.
- Each School Counselor is available for scheduling and facilitating parent/guardian/teacher conferences upon request of the teacher and/or the guardian.
- Each School Counselor is available to provide assistance in transition of a student described as a new entrant.
- Each School Counselor is available to support and collaborate with classroom teachers to meet the academic, social and emotional need of the students.
- Each School Counselor collaborates and consults with building administrators to provide academic, social and emotional interventions as needed.
- Each School Counselor is required to provide mandated counseling as indicated by a student’s Individual Education Plan or 504 plan
- Each School Counselor is responsible for informing students of end of the year procedures, which include summer school sign up and grading policies.

System Support:

- Professional Development: School Counselors must update their knowledge and skills by participating in training, professional meetings, conferences, and relevant coursework.
- Program Promotion: School Counselors provide orientation and information regarding the programs to the greater community via websites, counseling newsletters, and community presentations.
- High School Counselors will participate in ongoing evaluative measures to assess the efficacy of the counseling program

Management System of the Comprehensive School Counseling Program

Management of the School Counseling Program is organized, concrete, and clearly defined of the school's needs. In order to deliver a counseling curriculum in an efficient manner, the program must be managed well. This includes an agreement between school counselors and administration to determine what the School Counseling Program should accomplish. It also means using data to effect change within the school including student standard and competency based data. Action plans containing counseling competencies addressing domains and standards are part of the Comprehensive Counseling Model. Time distribution charts and calendars are also used to guide program delivery. The development of an advisory council to guide school counseling programs can be an effective tool in managing the School Counseling Program.

Accountability System for the Comprehensive Counseling Program

Amherst School Counselors and administrators are challenged to measure counseling program effectiveness. Counselors must collect data that links the program to student achievement. Results-based evaluation is essential to comprehensive school counseling programs. Results Reports are generated from perception and results data collected by the School Counselor. Implications for program development will be examined. A program audit conducted by School Counselors will also assist in program evaluation.
